- ✓ **COST INFORMATION**
for healthcare procedures
- ✓ **QUALITY RATINGS**
based on national data
- ✓ **ROBUST SEARCH**
by location or procedure
- ✓ **SIMPLE**
and easy to use

Quality and Cost of Care — Healthcare Bluebook Buy-up

- Price ranges with facilities for “shop smart services”
- Some provider and quality data
- Buy-up for quality data is \$1.75 PEPM

Where does it come from?

Healthcare Bluebook and Comparion Medical Analytics

- Partnered with Comparion Medical Analytics, one of the largest independent sources of hospital quality data — using their CareChex Quality Rating System
- CareChex Quality Rating System incorporates seven peer-reviewed methodologies addressing key components of the quality of inpatient care. Many of these methods have been adopted by the Hospital Quality Alliance and Agency for Healthcare Research and Quality:
 - Core Process Measures
 - Patient Safety Indicators
 - Inpatient Quality Indicators
 - Mortality Rates
 - Complication Rates
 - Readmission Rates
 - Patient Satisfaction Measures
- Majority of the data is from CMS MedPAR (Medicare data).
 - Only objective source data (not self-reported survey data)
 - Large enough to measure quality reliably on a per hospital and per procedure basis (over 45 million procedures).

Important Numbers and FAQ

- Employees can find important care information.
- Less costly options such as Nurse line (if available) are served up first.

Got a question?
Find definitions for common medical terms and a comprehensive FAQ

Plan ID Cards

- Take a photo of your ID card
- Choose which card to use
- Email, edit, or delete the card

Access To Benefits Videos

- Upload benefits videos for your employees
- Employees can view the Ben-IQ video, to learn more about the app.

Communication Resources

Education tools are available

- Ben-IQ video
- Sample email script
- Poster
- Flyer
- Postcard
- Table tents
- Downloading instructions
- HR administrator's guide
- Slides for OE presentations
