RE: Disability Certification

As a reminder, active participants who are off work due to a disability or occupational illness or injury are required to promptly file their temporary total disability certification with the *Teamsters Miscellaneous Security Trust Fund* to ensure uninterrupted health and welfare coverage. Failure to do so may result in a lapse of coverage.

If you are off work due to a disability or occupational illness or injury and need to file for your disability extension, please call Northwest Administrators, Inc., to request a short term disability certification form at (877) 214-8928.
